- CEU's
- Learn what's happening in OUR market
- Networking
- Fun and Fellowship
- New Products
- Defining the path of our Community

U.S. Green Building Council - Central Ohio Chapter and Construction Specifications Institute Columbus Chapter announce the first annual joint trade show and educational event to be held April 18, 2011 at COSI Columbus.

DesignColumbus2011 is an opportunity to learn about and engage in the transformation of the Central Ohio built environment with the goal of making it more healthy, prosperous, and sustainable. Sixteen educational

seminars along with the two floor trade show presents current and future development of technologies for all leaders in Central Ohio creating buildings and communities that promote economic growth and sustain the health and vitality of all life.

This full day of continuing education and informational displays is organized to attract hundreds of professionals involved in the building industry. Attendees and participants are

representatives of the entire project team, including architects, designers, engineers, owners, developers, government officials, municipal planners, facility managers, contractors, construction managers, construction specifiers, manufacturers, product representatives and others.

For all attendees, the continuing education component includes opportunities for AIA and GBCI/

USGBC continuing education units (CEUs). These CEU opportunities are of tremendous value to AIA and LEED Accredited Professionals interested in maintaining their credentials in an ever more competitive marketplace.
