## EDUCATION DAY & EXPO THE EVENT

DesignColumbus 2024 is an opportunity to learn about and engage in the transformation of the Central Ohio built environment to be more healthy, prosperous and sustainable. Educational seminars and expo present technologies for those creating built environments to promote sustainable growth, occupant health and economic vitality.

This full day of continuing education and informational displays is organized to attract hundreds of professionals involved in the building industry. Participants are representatives of the entire project team.

For all attendees, the continuing education component includes opportunities for AIA and GBCI continuing education units (CEUs). These CEU opportunities are of tremendous value to Architects and LEED Professionals interested in maintaining their credentials in an ever more competitive marketplace.

## KEYNOTE PRESENTATION

**SHAWN BOYSKO**, Equity Construction Solutions  
**JESSICA GLORIUS-DANGELO**, MA Design  
**HEATHER SCHREIBER**, Advanced Drainage Solutions

An overview of Truepointe, Equity's \$250 million, mixed-use development located in Hilliard Ohio will be discussed, including the site's storm water collection and rain-water harvesting systems that utilize ADS materials. ADS's brand differentiators will also be highlighted, including their commitment to LEED and WELL design, and the impact of ADS's brand on the building design. In addition, the ADS HQ Office's design, its relation to the master plan and ADS brand, and how ADS's desire for LEED Silver and WELL impacted the C&S design, will be explored.
